

PRODUCT COMPLIANCE DECLARATION

SUBJECT: Restriction of Hazardous Substances (RoHS)
EU Directives 2002/95/EC, 2003/11/EC,
2011/65/EU (RoHS2), 2015/863/EU (RoHS3)
and 76/769/EEC
Directive EC 1907/2006 concerning the Registration,
Evaluation and Authorization of Chemicals (REACH)

The following information has been provided by our supplier:

Products: EuroPort label part numbers 13XXXXXX consisting of

Label Materials: 2 mil White/Silver/Clear Polyester
1 mil and 1.5 mil Clear Polyester over laminate
3.8 mil White Polypropylene

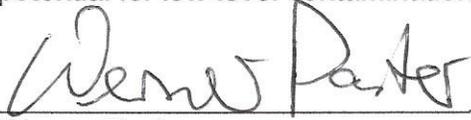

Inks: Colored Thermal Transfer Printing Ribbons

The supplier of our labels has verified and confirms that all material components and inks used in our products comply with the European Directives stated above.

Concerning the content of REACH SVHC Chemical Substances, none of the 197 substances listed in the Candidate List as of January 2019 are knowingly used or intentionally added during the manufacturing process and none are present in the product in concentrations in excess of 0.1% by weight. Therefore our products meet the requirements for REACH SVHC Chemical Substances.

It is our understanding that labels are 'articles' and therefore registration is not required. Most of our labels weigh less than 1 gram and therefore could be exempt due to the weight ratio between the equipment and the label.

Be advised that we do not routinely analyze our products for any of the above referenced substances and it is therefore not possible for us to state categorically that our products are "free" from these substances. Trace amounts may be present in the environment, giving the potential for low-level contamination.
